SUMMARY

Senior Operations & Technology Leader with over 31 years of experience in procurement, supply chain, fleet management, and digital transformation. Currently driving AI-enabled fleet analytics for RSAF/MINDEF, I specialise in SAP Material Management, KPI governance, and supplier recovery, ensuring resilience and measurable ROI across complex operations. My career spans leadership roles at Bridgestone (fleet optimisation), NCS Group (AI product management), and senior business development positions in global trading and sales. I bring a unique blend of AI adoption, operational excellence, and cross-functional leadership, positioning me as succession-ready for Lam Research's Global Operations Group. I am passionate about embedding AI-driven analytics into procurement and logistics, enabling organisations to achieve efficiency, cost optimisation, and sustainable growth.
