

SAM LEONG

EXECUTIVE AI SYSTEMS ARCHITECT & DIGITAL TRANSFORMATION LEADER

Dual-Threat Value Pillar: 31 Years Global P&L & Supply Chain Leadership + Hands-On Agentic AI Architecture

BAND 5 STRATEGIC MASTERY

Location: Singapore (Citizen)
Email: silentious@outlook.com
LinkedIn: linkedin.com/in/samleong2828/

SECTION 1: 29-AGENT ENTERPRISE AI OPERATING SYSTEM ARCHITECTURE

USER / HUMAN-IN-THE-LOOP (HITL) OVERSIGHT GATE — High-Risk Checkpoints & Token Delegation

EVENT-DRIVEN MESSAGE BUS — Model Context Protocol (MCP) Router & Anthropic Claude API Engine

Phase 1: Security

- SecurityChecker
- ComplianceAuditor
- Zero-Trust Tokens

Phase 2: Observability

- TestRunner (Regression)
- OutputValidator (QA)
- SessionState (Memory)

Phase 3: Connectors

- MigrationPlanner
- EnterpriseConnectors
- KnowledgeGraph

Baseline Suite

- 19 Microservice Agents
- ATS Alignment Engine
- Multi-Channel Sync

ZERO-TRUST GOVERNANCE LAYER: Singapore IMDA Agentic AI • NSA MCP Guidelines • NIST AI RMF • Singapore PDPA

ENTERPRISE ERP BACKBONES & CONNECTOR APIS: SAP MM • Oracle ERP • Azure DevOps • Jira • Salesforce

SECTION 2: 3-PHASE CAPABILITY ROADMAP & MATURITY TIMELINE

PHASE 1: SECURITY & COMPLIANCE

HORIZON: MONTHS 1–2

- Agent-SecurityChecker:** Scans MCP tool calls, enforces sandbox boundaries.
- Agent-ComplianceAuditor:** Ensures PDPA/GDPR auditability & immutable logs.
- Zero-Trust Architecture:** Least-privilege JWT tool tokens & HITL policies.

OUTCOME: Zero-trust tool execution, risk bounding, and strict data privacy compliance.

PHASE 2: OBSERVABILITY & QA

HORIZON: MONTHS 3–4

- Agent-TestRunner:** Automated regression suites across prompt chains.
- Agent-OutputValidator:** Schema validation & 95%+ ATS score checks.
- Agent-Monitoring:** OpenTelemetry tracking for token budgets & latency.

OUTCOME: 99.9% output reliability, <300ms latency, and C-Suite cost/usage dashboards.

PHASE 3: ENTERPRISE CONNECTIVITY

HORIZON: MONTHS 5–6

- Agent-MigrationPlanner:** Models SAP MM & Oracle ERP data transitions.
- Agent-EnterpriseConnectors:** MCP adapters for Jira, Slack & Azure DevOps.
- Agent-KnowledgeGraph:** Semantic maps bridging domain rules with code.

OUTCOME: Direct ERP modernization integration & zero documentation debt.

SECTION 3: GOVERNANCE ALIGNMENT & RECRUITER CAMPAIGN ACTION PLAN

REGULATORY & GOVERNANCE MATRIX

Framework	Implemented Control
Singapore IMDA Agentic AI	HITL approval gates & explicit tool-call scopes
NSA MCP Security Rules	Scoped JWT tokens & isolated runtime sandboxes
NIST AI Risk Guardrails	Automated QA regression & hallucination checks
Singapore PDPA / GDPR	Immutable audit logs & data boundary constraints

C-SUITE PANEL INTERVIEW SCRIPT

"I started with a 19-agent MCP pipeline proving agentic orchestration. But enterprise deployment requires zero-trust security and ERP integration. My 29-agent roadmap aligns with IMDA, NIST, and NSA security standards—delivering ROI while mitigating risk. I don't just build agents; I build governed enterprise AI operating systems."

RECRUITER CAMPAIGN ACTION PLAN

- ☐ **STEP 1: PACKAGE APPLICATION PACKET (DAY 1)**
Combine CV + Executive Brief PDF + Infographic PDF
- ☐ **STEP 2: LINKEDIN FEATURED & CAROUSEL (DAYS 1–2)**
Feature infographic PDF; post 3-phase roadmap carousel
- ☐ **STEP 3: HEADHUNTER OUTREACH (DAYS 3–5)**
Target Page Exec, Korn Ferry, Robert Walters & Hays partners
- ☐ **STEP 4: INTERVIEW LOOP EXECUTION (WEEK 2+)**
Deliver C-Suite pitch; screen-share architecture diagram

TARGET COMPENSATION BAND (SINGAPORE):

S\$210,000 – S\$300,000+ Total Yearly Package (Director / VP Tier)
