

Technical Deployment Checklist: 45-Agent AI Enterprise

Technical Deployment Checklist: Automated AI Enterprise (45-Agent SaaS)

Pre-Deployment

- ☐ Secure domain and hosting (AWS/Azure).
- ☐ Set up landing page (Carrd/Bubble/Softr).
- ☐ Integrate OpenAI GPT-4 API.
- ☐ Configure Stripe/PayPal for payments.
- ☐ Establish Zapier/Make workflows.

Phase 1 (Day 1-3)

- ☐ Deploy Support Agents (Knowledge Bot, Onboarding, Ticketing).
- ☐ Connect Support workflows to Orchestration.
- ☐ Test customer onboarding flow.

Phase 2 (Day 4-7)

- ☐ Deploy Marketing Agents (SEO, Outreach, Social Scheduler).
- ☐ Deploy Billing Agents (Payment Processor, Subscription Manager, Dunning).
- ☐ Validate payment flows end-to-end.

Phase 3 (Week 2)

- ☐ Deploy Orchestration Agents (LLM Reasoning, Workflow Automation, Scaling).
- ☐ Configure error recovery and caching.
- ☐ Set up logging and audit trails.

Phase 4 (Week 3)

- ☐ Deploy Compliance Agents (Policy Generator, GDPR/Data Deletion, Risk Monitoring).
- ☐ Integrate consent management and encryption.
- ☐ Validate regulatory reporting.

Phase 5 (Week 4)

- ☐ Expand Support Agents (Multilingual, Sentiment Analysis, Escalation Router).
- ☐ Expand Billing Agents (Fraud Detection, Tax Compliance, Currency Conversion).
- ☐ Expand Marketing Agents (Influencer Partnerships, Newsletter Automation).

Post-Deployment

- ☐ Monitor uptime (UptimeRobot).
- ☐ Track KPIs (MRR, churn, CAC, LTV).
- ☐ Run compliance audits.
- ☐ Optimize based on user feedback.
